Imagine your outgoing mobilities managed with a Smile

The University of Caen Normandie, in partnership with the University of Strasbourg, is developing an online management system for outbound exchange mobility called Smile.

SMILE will be available to all French Higher Education institutions to **facilitate and dematerialise the administrative procedures** related to incoming exchange students, in accordance with the Erasmus Without Paper directives.

What procedures are involved?

- Access to the online course catalogue of the host university
- Automatic edition of the Online Learning Agreement and electronic signature
- Pre-registration
- Automatic conversion of transcript of records

What are the benefits for you?

- Adapts the academic offer to your students' profile and provides course descriptions, credits and assessment methods
- Makes data exchanges more secured and information updated in real time
- Connects to the entire digital environment (EWP, dashboard, providers...)
- Is customised to each Higher Education Institutions
- Meets the requirements of the new Erasmus+ 2021-2027 programme concerning the digitalisation and dematerialisation of international cooperation procedures
